Mr. Ted Janke
W14010 Janke Road
Hixton, WI 54635

Subject: Satisfaction of Notice of Discharge – Category II

Dear Mr. Janke:

The purpose of this letter is to acknowledge that you have implemented the necessary corrective actions at your farm located at T23N R5W S33 SWSW that was requested in the Notice of Discharge (NOD) – Category II dated June 11, 2014. You received this notice to reduce or eliminate animal waste discharges from your livestock operation to an unnamed tributary to the North Branch of the Trempealeau River. Your NOD required that you take corrective measures to resolve the discharge from your livestock facility. Abandonment of the animal lot adjacent to the creek and the construction of a new covered animal facility were completed in order to comply with the NOD.

Please be aware that it is now your responsibility to maintain this newly installed facility and associated manure. If you fail to maintain the corrective actions, the Department of Natural may take enforcement action under state law, issuance of a Notice of Discharge including referral to the Department of Justice pursuant to s. 283.29, and/or you may also be issued a WPDES permit.

Your efforts in this matter are appreciated and have contributed to improved water quality in the unnamed tributary to the North Branch of the Trempealeau River. If you have any questions or concerns, please contact me at (608) 785-9984.

Sincerely,

Cindy Koperski
