Subject:	Post Closure Modification Request, Approval, for Mike"s Auto (BRRTS 03-11-555987) and Kwik Trip 314 (BRRTS #03-11-002628)
Date:	Thursday, January 30, 2025 2:52:00 PM

Good afternoon,

DNR has reviewed the Post-Closure Modification Request you submitted with a review fee on December 5, 2024 for the Mike's Auto (BRRTS #03-11-555987) and Kwik Trip #314 (BRRTS #03-11-002628). For the Mike's Auto site, a cover must exist over the existing contamination. For the Kwik Trip site, any contaminated soil that is excavated must be sampled and properly disposed of a DNR-licensed landfill.

The request indicates that any contaminated soil that is removed will be disposed of at a state licensed landfill. The soil cannot be used as backfill. This information will be included in future TSSA after construction. The cover/cap at Mike's auto will be replaced in kind. DNR asks that you document these construction activities and cover restoration will be submitted to DNR.

DNR will issue a final approval and post closure modification letter after reviewing the construction documentation report.

This email serves as a preliminary approval of your post closure modification and your Notice to Proceed.

Please feel free to contact me with any questions.

Thanks,

We are committed to service excellence.
