Matt and Dave,

I reviewed the Surface Water Monitoring Plan. Section 5 appears to reflect our decisions on plan modification based on observed results from past sampling. The only change we discussed that is not included is Superior Refining's decision to continue monitoring for SVOCs instead of PAHs. I have no objection to continued SVOC analysis.

We are committed to service excellence.
Visit our survey at http://dnr.wi.gov/customersurvey to evaluate how I did.

Hey John,

I've attached a few files for your reference:
-The signed Waste Management Plan
-The updated (fewer/updated locations and analytes) Surface Water Sampling and Analysis Plan
-The Oil Movement Storage Tank Information list

Let me know if you have any questions.

Thanks,

Matt Turner
