Dear Mr. Sparacio:

Stantec Consulting Services Inc. (Stantec) has prepared this letter report summarizing the disposal of building debris generated during the demolition of the remaining industrial buildings at the former Mirro facility located at 1512 Washington Street in Manitowoc, Wisconsin (herein referred to as the Property). The location of the Property is illustrated on Figure 1. An Orthophotograph of the Property from 2014 (prior to demolition) is provided on Figure 2.

BACKGROUND AND PURPOSE

The purpose of this letter is to provide a summary of the disposal of debris from demolition of the remaining industrial buildings at the Property. Photographic documentation is provided in Attachment A. Summary documentation from the Waste Management (Whitelaw, Wisconsin) solid waste landfill is provided in Attachment B. Documentation from the Heritage Environmental Services (Heritage) hazardous waste landfill located in Roachdale, Indiana (USEPA ID IND980503890) is provided in Attachment C.

DEMOLITION DEBRIS

As described in Stantec (2018a and 2018b), friable or potentially friable asbestos was abated by Holian Environmental Cleaning Corp. (Spring Grove, Illinois) and restricted wastes were containerized and removed from the Property by Brandenburg Industrial Service Company (Brandenburg) prior to initiation of building demolition. Brandenburg demolished the remaining buildings using a combination of hydraulic breakers and heavy machinery utilizing a fine water mist to control dust as described in the *Site-Specific Demolition Plan* (Brandenburg, 2017). The demolition of the remaining buildings generated several debris waste streams as described below.

PCB-Impacted Debris. As documented in Stantec (2018a), demolition debris from Area 8, Area 14, and the Loading Dock with polychlorinated biphenyl (PCB) concentrations greater than 50 milligrams per kilogram were transported offsite for disposal at the Heritage hazardous waste landfill.

Area 24. Per Stantec (2017a), lead impacted demolition debris from Area 24 was managed as a hazardous waste and transported offsite under uniform hazardous waste manifest 000833809WAS for disposal at the Heritage hazardous waste landfill. The manifest and associated disposal certificate provided by Brandenburg are provided in Attachment C.

Comingled Demolition Debris – Offsite Disposal. Pursuant to recommendations by Stantec (2017a) and approval by the landfill, 36,581 tons of comingled demolition debris outside the areas listed above were transported offsite under special waste profile number 12673WI for disposal at the Waste Management solid waste landfill located in Whitelaw, Wisconsin. Landfill documentation provided by Waste Management is provided in Attachment B and summarized on Table 1. Paper copies of landfill scale tickets are on file at the City of Manitowoc Department of Public Infrastructure.

Non-Friable Asbestos Containing Material – Offsite Disposal. Per the recommendation of the landfill, 496 tons of non-friable asbestos containing material (primarily roofing) were segregated and transported offsite under waste profile number ASB126791WI for disposal at the Waste Management solid waste landfill located in Whitelaw, Wisconsin. Landfill documentation provided by Waste Management is summarized in Attachment B. Paper copies of landfill scale tickets are on file at the City of Manitowoc Department of Public Infrastructure.

Lead-Painted Cementous Demolition Debris – Onsite Beneficial Reuse. Pursuant to Wisconsin Department of Natural Resources (WDNR) approval on June 2, 2017 of Stantec (2017b), approximately 2,240 cubic yards of lead-painted cementous demolition debris were used to temporarily backfill pits/vaults at the Site to prevent collapse and eliminate potential access ways into the subsurface tunnel network. Methods for placement described in Stantec (2017b) were followed by Brandenburg; the locations of the filled features are illustrated on Figure 3.

Recyclable Steel. 3,447 tons of recyclable steel were transported offsite by Brandenburg for recycling at facilities located in Wisconsin and Illinois. Scale tickets/bills of lading and a summary table of recycled materials are provided in Attachment D.

CONCLUSION AND RECOMMENDATION

Documentation provided by Brandenburg and Waste Management indicate 23.4 tons of debris from Area 24 were landfilled in the Heritage hazardous waste landfill; 3,447 tons of steel recycled; 37,078 tons of comingled demolition debris were landfilled in the Waste Management solid waste landfill; and 2,240 cubic yards of lead-painted cementous debris reused onsite.

Although the buildings have been demolished, subsurface impacts are known to exist at the Property. Therefore, as discussed in Stantec (2018a), the City must maintain the temporary cover installed over the PCB-impacted soil until the soil is removed. A tall chain-link fence with signage should be maintained around the entire perimeter of the Property, and personnel from the City police department should continue patrols at the Site on a routine basis to prevent trespassing. As financial resources are secured, a site-specific sampling and analysis work plan should be prepared and submitted to the United States Environmental Protection Agency (USEPA) and WDNR for coordinated review and a Site Investigation completed per ch. NR 716 Wisconsin Administrative Code requirements to delineate the horizontal and vertical extents of subsurface impacts to soil and/or groundwater.

In addition, pursuant to the WDNR permit to reuse lead-painted cementous debris onsite, the debris is to be permanently covered or removed by June 2, 2018; however, the City can request an extension to this deadline. In addition, if not removed from the Property during redevelopment,

construction documentation will need to be provided to WDNR documenting the final placement and management of reused led-painted cementous demolition debris.

We recommend a copy of this report be provided to WDNR to as documentation of the demolition and beneficial reuse of material onsite.

the property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of the said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) in Official, Southern, Western and Illinois Freight Classifications in effect on the date hereof, if this is a rail or rail-water shipment, or (2) on the applicable motor carrier classification or tariff if this is a motor carrier shipment.
Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back hereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

the property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of the said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) in Official, Southern, Western and Illinois Freight Classifications in effect on the date hereof, if this is a rail or rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment.
Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back hereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

the property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of the said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) in Official, Southern, Western and Illinois Freight Classifications in effect on the date hereof, if this is a rail or rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment.
Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back hereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.
