To: Recipients of *The State of the Bad Axe - La Crosse River Basin Report*

We are pleased to present our first *State of the Bad Axe - La Crosse River Basin* report. This report provides an overview of land and water resource quality, identifies challenges facing these resources, and outlines actions the Wisconsin Department of Natural Resources and its many partners can take over the next few years to protect and restore our natural resources throughout the basin.

This report is organized into land and water sections for simplicity, but shows how all our resources are closely linked. This ecosystem approach realizes that environmental, social and economic elements factor into our resource management decision making process. Some of our greatest resource management challenges are related to striking a balance between environmental protection and social considerations.

The general nature of this report does not allow us the opportunity to provide intricate details of all resources and issues. Internet links and phone numbers are provided throughout this report so readers wanting more detail can easily find the information.

This report is a work in progress. As objectives are met and projects are completed, we will provide updates on our Bad Axe - La Crosse Basin Internet page at <http://www.dnr.state.wi.us/org/gmu/balax/index.htm>. We look forward to maintaining a relationship with all our partners as we work together to protect, restore and enhance our natural resources throughout the Bad Axe - La Crosse Basin.

Sincerely,

Dan Bauman
Bad Axe - La Crosse Water Leader

Glen Eveland
Bad Axe - La Crosse Land Leader

ACKNOWLEDGMENTS

Preparation of *The State of the Bad Axe - La Crosse River Basin* plan has been an effort of the Wisconsin Department of Natural Resources Land and Water basin staff with support from the Bad Axe - La Crosse River Basin Land and Water Partners and DNR field and central office staff in the Divisions of Forestry, Land, and Water. Many individuals contributed information, data analysis or review. Their help is much appreciated.

This publication was partially funded by 604(b) and 104(b) grants from the U.S. Environmental Protection Agency to fulfill requirements of Areawide Water Quality Management Planning under Section 208 of the Clean Water Act and NR121 of Wisconsin's Administrative Code.

This plan also serves as an implementation component of Wisconsin's Fisheries, Habitat and Wildlife Strategic Implementation Plan.

Equal Opportunity Employer

The Wisconsin Department of Natural Resources provides equal opportunity in its employment, programs, services, and functions under an Affirmative Action Plan. If you have any questions, please write to Equal Opportunity Office, Department of Interior, Washington, D.C. 20240. This publication can be made available in alternative formats (large print, Braille, audio-tape, etc.) upon request. Please call L. Helmuth, 608-266-7768, for more information.
