RE: EPA authorizes the City of Ashland's Kreher Park Redevelopment Project, Ashland/NSP Lakefront Superfund Site

Dear Mr. Butler:

The United States Environmental Protection Agency (EPA), in consultation with the Wisconsin Department of Natural Resources (WDNR), has reviewed the City of Ashland's updated plans (Contract Docs & Specs) for the Kreher Park Redevelopment Project sent on July 11, 2019. The plan is not inconsistent with EPA's Record of Decision and the EPA approved design plans for the Kreher Park Capping and Restoration. Therefore, EPA gives the authorization to incorporate the City of Ashland's redevelopment plans.

Please submit a contact list so we know who to call if there is a problem with the City's work activities. If you have any questions or would like to discuss things further, please contact me at 312-886-1999.

Sincerely,

Scott Hansen
