SUBJECT: Case Closure Wisconsin Department of Natural Resources, Wausaukee Ranger Station; 1025 HWY C; Wausaukee, Wisconsin
BRRTS CASE #: 02-38-184717

Dear Mr. Haug:

On December 8, 1998, the above-named site was reviewed by the Northeast Region Closeout Committee to determine whether the case qualified for closeout under ch. NR 726, Wis. Adm. Code. This panel reviews environmental remediation cases for compliance with state laws, standards, and guidelines to maintain consistency in the closeout of cases. The Closeout Committee has approved the closure of this case.

Based on the investigative and remedial documentation provided to the Department, it appears that the contamination at the above-named site has been remediated in compliance with the requirements of chs. NR 700 to 724, Wis. Adm. Code. Therefore, the Department considers the case "closed," having determined that no further action is necessary at the site at this time. However, this case may be reopened pursuant to s. NR 726.09, Wis. Adm. Code, if additional information regarding site conditions indicate that contamination on or from the site poses a threat to public health, safety or welfare to the environment.

Thank you for your and your consultant's cooperation and cleanup efforts during this process. If you have any questions regarding the content of this letter, please contact me at 920-492-5592.

Sincerely,

Roxanne Nelezen Chronert
Hydrogeologist
