Subject: RE: WI SPILL #15236 ID 20200424NE08-1 - MANURE [MANURE]

Categories: SPILLS

Jonathon stopped out. He said it appeared as though it was scraped up then hosed down. He did not see any manure residuals in the ditch and had no concerns for water resources in the area. So as far as the spill goes, all is well. The dispatcher did say that a warden was out there. I'm not sure which one.

He was not sure what farm it was. If you'd like to do a hauling audit they were hauling to a field in Brown County. He could only make out a W on the trucks so his guess was Woldt or Wiese.

I do not plan on doing any additional follow up. But if anyone from the CAFO side plans to, please let me know if I can be of any help.

Happy Friday!

Erin

Just an FYI – Tony called me, Jonathon is on is way out there to find out who's manure it is and Tony was going to talk to the sheriff about the traffic/safety concerns. I'll let you know when Jonathon or Tony call me back with news on who the poo belongs to.

I'm not sure who would be spreading around there. Looking at our NMP layer Wiese operates some land in the area, Woldt, Tri-County Farms. There is also a Nathan Schnell that owns land in the area but he does not produce manure but could potentially get it from someone else.

I'm a little unclear on where this manure is from the report, do you know if it is on 57, CalMan or Hwy K?

Hey Tony,

Do you know who might be hauling out in this area? And is anyone from your office available to check it out? If not I can run down there around 10:00.

Thanks,

Erin
