SUBJECT: No Further Action
Lakeside Foods – Eden Pet Food Division, 108 W. Main Street, Eden, WI
BRRTS 02-20-585313

Dear Mr. Simon:

On February 21, 2020, the Wisconsin Department of Natural Resources (DNR) received *No Further Action Determination Request* with the applicable fee. The DNR has reviewed the document and concurs that the environment has been restored to the extent practicable as provided in ch. NR 708.09, Wis. Adm. Code. The immediate action in response to a discharge has been completed and the Department of Natural Resources is requiring no further action at this time. A small area of soil with petroleum odor was observed during a foundation exaction. Excavated soil was stockpiled pending characterization while excavation sidewalls were assessed. Stockpiled soil was transported to a landfill and laboratory analysis performed confirmation samples from the excavation confirmed no petroleum contaminants were present at concentrations greater than laboratory detection limits.

We appreciate your efforts to protect and restore the environment at this site. If you have any questions regarding this No Further Action determination, please contact the Project Manager, Dave Neste in Oshkosh at (920) 362-2072 or david.neste@wisconsin.gov.

Sincerely,

Roxanne N. Chronert
Team Supervisor, Northeast Region
Remediation and Redevelopment Program
