Mr. Olson and Mr. Wills:

The DNR has reviewed the February 22, 2021 request from Ayres Associates for approval to use an alternative direct contact cap in the playground area of the proposed childcare center at this facility. Based on the information provided this alternative cap is equal to or more protective than the previously approved soil cap. This letter is your approval to use the proposed playground cap profile described in your request.

If you have questions regarding this approval, please contact me at 920-410-0170 or kevin.mcknight@wisconsin.gov.
