LISA HELMUTH
WISCONSIN DEPARTMENT OF NATURAL RESOURCES
101 SOUTH WEBSTER ST.
MADISON, WI 53703

RE: Text Amendment to the Janesville Area Point Source Water Quality Management Plan

Dear Ms. Helmuth,

The governmental units within the Janesville Area Point Source Water Quality Management Plan have considered and approved a text amendment to manage placement of onsite septic systems within the existing sewer service boundary. New guidance is provided to determine the availability of public sewer in relation to a landowners request to construct a conventional or mound system. This joint effort by all those involved in the review/permitting process and elected policy makers resulted in consensus vote of approval.

Enclosed you will find the necessary documentation indicating ample opportunity for public involvement, political review and implementation fine tuning. We are requesting that the Wisconsin Department of Natural Resources review the text amendment and approve it.

Please contact this Agency if you have any additional questions or data needs.

Thank you for your time and efforts,

Colin Byrnes
