RE: Corrective Action Final Report

Responsible Party Information:
Con-Way Freight
2211 Old Earhart Road, Suite 100
Ann Arbor, MI 48105
Telephone: 734-757-1657

Incident Description: UN1325 Flammable Solids Release
Incident Time/Date: 0039 EST., June 26, 2014

Incident Street Address: 1710 Winnebago Avenue
Incident City, State: Tomah, Wisconsin
Incident County: Monroe

Property Owner Information: Con-Way Freight

Wisconsin Emergency Management #: 20140626WC42-1
ERTS Project #: 06262014TOWI16044

Dear Sir or Madam;

The following serves as the final report detailing the emergency response and corrective actions taken in response to the incident that occurred on June 26, 2014, at the above referenced location. Please see site map attached (Appendix 1).

Incident Background:

On June 26, 2014, at a Con-Way Freight terminal it was discovered during unloading operations that a pallet of 50 pound bags of UN1325 Flammable Solids was damaged in a cargo related issue resulting in the release of an estimated 10 pounds of material to the trailer floor approximately 10' by 20'. No soils, storm drains or waterways were impacted by the release.

Emergency Response and Training Solutions

Emergency Response:

On June 26, 2014, Con-Way Freight contacted Emergency Response and Training Solutions (ERTS) to manage and oversee the above referenced incident. ERTS dispatched WRR Environmental to perform emergency response and remediation.

Regulatory Notifications:

Pursuant to Wisconsin State regulations Wisconsin Department of Natural Resources Regulations, Chapter 706, Section 706.05, ERTS notified the Wisconsin Emergency Management (WME). Jeremy acknowledged receipt of the incident and tracking number 20140626WC42-1 was assigned to the incident.

Corrective Action:

On June 26, 2014, WRR personnel arrived on site for cleanup activities. The contractor unloaded the damaged pallet of bags and placed the leaking containers into an over pack drum. The contractor then swept up the released material and containerized it for pending disposal.

Waste Disposal:

All waste was left on site to be managed by Con-Way Freights national vendor. No disposal documentation was made available for this incident as the over pack drum with the absorbents in it was returned to the shipper for reclamation/disposition. Please contact Jeff Sexten at Con-Way Freight regarding disposal documentation at 734-757-1657.

Conclusions and Recommendations:

No evidence was found that suggests any significant environmental impact remains on the site following corrective action. This is considered to be a onetime incident and ERTS recommends that the incident be closed.

ERTS and Con-Way Freight appreciate your assistance in this matter. If you have any questions regarding this project, please do not hesitate to contact me at (440) 349-2700 Extension 312.

Respectfully,
Emergency Response & Training Solutions

Ed Ballash
