Washington, D.C. 20426

***Stevens Point Hydroelectric Project, FERC No. 2110 – Article 405, Exotic Species Biennial
Monitoring Report – 2006/2007***

Dear Ms. Salas:

In accordance with the order approving the Exotic Species Control Plan, Consolidated Water Power Company (CWPCo) is filing the monitoring report for 2006/2007.

CWPCo conducted monitoring during the summers of 2006 and 2007 on the Project. Inspections were completed by vehicle and boat (where necessary). No observances of Eurasian milfoil or curly-leaf pondweed were noted. Purple Loosestrife was observed sporadically and smaller colonies were removed to the best extent possible. Information about invasive species is provided along with the distribution of our recreational brochures which are free to the public.

CWPCo operating and maintenance personnel informally monitor for the presence of zebra mussels during the course of their normal work duties. No zebra mussel observations were reported in 2006 or 2007.

Sincerely,

CONSOLIDATED WATER POWER COMPANY

Mark E. Anderson
Resources Manager
