Hi Alyssa - per our call on Monday, attached is a copy of the generic letter offering irrigation well abandonment/connection to the house for the 16 homes shown on the attached table.

These are going out today.

Thanks
Denice

Subject: City of Marinette Irrigation Well Letter and Addresses

Mayor and Warren-

Per our conversations, attached is a copy of the template letter and a table of the addresses of those irrigation wells within the 20 ppt boundary of our current plume. We are planning on sending out this letter on Wednesday of this week, so wanted to get to you now in case you have questions.

As we discussed - we are limiting this to those wells within the 20 ppt portion of the plume.

Please let me know if you have any questions.

Thanks-

Denice Nelson

Subject: Irrigation Well Conversion to Municipal Water
Parcel #<PIN>, <Property Address>
Date: <Month DD, YYYY>

Dear Neighbor:

We're reaching out to let you know that your property at <Property Address> is currently registered with the City of Marinette as having an irrigation well. This well may be drawing water from an area of the aquifer that could be affected by past Tyco operations. **Tyco would like to help properly abandon your irrigation well and install one or more spigots connected to your municipal water supply, completely free of charge**. We also understand that using metered municipal water for irrigation might bring some changes. **To help offset any cost or inconvenience, Tyco will provide you with a one-time payment of $2,500** once your irrigation well has been properly abandoned. This payment is designed to cover about 5 to 10 years of typical irrigation water use.

If you're interested in making the switch from your irrigation well to a municipal water connection, simply give us a call at (800) 314-1381 to let us know you'd like to participate. We will coordinate and complete the abandonment and new setup.

For more details about Tyco's history in the area, ongoing site investigations, and cleanup efforts, please visit tycomarinette.com. If you have any additional questions, you'll also find contact information below for the Wisconsin Department of Natural Resources (WDNR) and the Wisconsin Department of Health Services (WDHS). We're here to support you every step of the way and appreciate your partnership in helping keep our community safe and healthy.
