5. Additional Information. (Space will expand to fit your text.)

At the time of the TRM Grant application it was thought the best way to determin pollutant loadings and and reductions was through the SnapPlus program, however since then, I believe that thought has changed and for large dirt lots the best tool is still the Barny Model developed by the USDA-NRCS. That being the case either the numbers submitted above or the following applies for the reductions gained since project installation followed the original planned system. The following is a copy from the TRM application: "The existing 10 acre earthen lot is eroding at 6.2 tons/acre/year and has a Phosphorus Index of 8. After the proposed project is completed the amount of earthen lot will be reduced to approximately 4 acres. The soil loss after the re-configured lot will be 3.6 tons/acre/year (a 42% reduction). The Phosphorus Index will be 4 (a 50% reduction) prior to taking credit for the proposed buffers, the designed buffer below the lot will reduce the P.I. to one (1), an 88% reduction."

6. Summary of Project Challenges. (Space will expand to fit your text.)

There were not project challenges and the project went smooth.

7. Grantee Certification.

Checking here ☒ certifies that, to the best of your knowledge, the information contained in this report is correct.

Name of Authorized Representative (type or print) ↓	Title of Authorized Representative (type or print) ↓
Paul Mueller	**Administrator**

Signature of Authorized Representative	Date
Paul Mueller	1/17/2014

8. For Departmental Use Only.

Regional NPS Coordinator – Please complete the following:

8.A. Check here ☒ if you have received the following from the project sponsor:

- one (1) printed, signed, original Final Report + attachments
- one (1) electronic version of Final Report.

Send the printed, signed original Final Report with attachments + electronic version to the Community Financial Assistance Grants Manager. Community Financial Assistance will forward to Runoff Management Section Grants Coordinator.

8.B. Comments about this project:

8.C. Type or print Name of Regional NPS Coordinator →	MICHAEL CARRILLO
8.D. Signature of Regional NPS Coordinator	8.E. Date 1/23/2014
