Hey Shelby,

During our Nearshore Fish Surveys these past two days we came across Rusty Crayfish in two completely separate locations on the lake. Here is a photo of one held by the man himself John Lyons.
Location of this one: 43.096658, -88.924361

Also held onto one we found on the south end in Minnow Trap today. I was going to put this one on ice and try to preserve as a specimen for display.
Location: 43.067121, -88.931283

Let me know if you need anything else for Rusty to be officially listed on DNR Lake Page.

Thanks.
