Dear Ms. Paustian:

RE: School Road Reconstruction – Julius Drive to STH 76 (Municipal Drive)
Contract "B-22"
Village of Greenville, Outagamie County, WI
Regional Planning Commission – Sanitary Sewer Service Area Amendment

Enclosed, on behalf of the Village of Greenville, are the following items and documentation that you requested for a Sanitary Sewer Service Area Amendment request per SSA Amendment Process Policy Section 1,F.

- A letter of request from the Village of Greenville to amend the Fox West Sewer Service Area to include the acreage associated with the sewer line easement for the project.
- Map of the location and project details
- Payment Form (fee is being sent separately via mail)
- Statement that the sewer main line will not directly service new development (included in attached letter)
- Statement that the sewer extension is adjacent to the existing Fox West Sewer Service Area (included in attached letter)

Should you have any questions or require additional information, please feel free to contact me at 920-785-7303.

Sincerely,

CEDAR CORPORATION

Justin J. Keen

RE: Amendment to Fox West Sewer Service Area for School Road Transport Sewer

Dear Wilhelmina:

The Village of Greenville Utility Department is requesting an amendment to the current Fox West Sewer Service Area. The location that the Utility is requesting to be amended is 1320 LF of 8" PVC sewer located on the north side of School Road. The amended area commences 410' west of the intersection of School Road and Churchill Road and extends 910' east of the same intersection. This results in a total length of 1,320' and an area of 87,120 Sq Ft.

This sewer line is being constructed as part of road reconstruction project. There are existing homes that will be connected to the sewer line but no new homes will be serviced by this sewer line. This sewer line and the amended area will connect two existing locations within the existing Fox West Sewer Service Area. As a result, this amendment serves as an extension adjacent to the existing Fox West Sewer Service Area and will not service any new developments.

The Utility Department understands that any new development of the adjacent lands with sanitary connections will require a separate amendment to the Fox Cities Sewer Service Area Plan.

Sincerely,

Brian Rickert, P.E.
Director of Public Works
