(For Hearing Officer completion)

## Change Netting Regulation to allow use of casting net's for Minnows, Smelt and rough fish

**Whereas netting is allowed with dip net and seines for minnows, Smelt and rough fish already and there does seem to be a common sense reason not to allow the use of cast nets for same purposes.**

**Would you support the Conservation Congress work with the DNR the state legislature to change regulations to allow the use of a casting net no larger than 7 feet in diameter and mesh no larger than 1/2 inch stretch measure for the same netting purposes as seines and dip nets with the same restrictions?**
