

Citizen Resolution # 170123

Open the Hoffman Hills State Recreation Area to all legal hunting seasons

Currently the 715 acre Hoffman Hills State Recreation Area is only open for hunting during the nine-day November gun deer season as designated in the restrictions of the deed for the original parcel of land that was donated. Subsequent parcels of land were later donated that have no deeded hunting restrictions. Opening up those parcels to all legal hunting seasons would provide roughly 400 acres of additional public hunting access to our citizens. Doing so would also fall in line with how hunting access is handled at the majority(7 out of 8) of other recreation areas that are located in other parts of the state. The state real estate office confirmed that this is an achievable change based on the parcel deeds for the recreation area.

Would you support the parcels of the Hoffman Hills State Recreation Area with no deeded hunting restrictions being opened to all legal hunting seasons?
