

Citizen Resolution # 350123

Add Lake Alice in Lincoln County to the list of lakes with a 25/10 panfish regulation

Lake association members at our annual meeting on 6/4/22, people fishing Lake Alice stated that harvest numbers and mean length of panfish in Lake Alice have declined. Lincoln/Antigo county DNR Fisheries Biologist David Seibel was contacted and stated "that he can not make a recommendation either for or against because of the lack of recent data".

Would you support the implementation of a daily bag regulation of 25 total panfish, no more than 10 of any species on Lake Alice in Lincoln County?
