

# Citizen Resolution # 380123

## **Allowing the Use of Handguns capable of using a fixed shothell for turkey hunting (legislation required)**

Turkey hunting at its best is to call the bird up close, spring ro fall, before you take your shot. Allowing the use of a pistol or revolver capbale of firing a " fixed shot shell" enhances that hunt and is most rewarding. It allso expands the oppportunity of take, and the thrill of "fair chase" for any hunter who hunts. the wild turkey. It gives the hunter another leagl method to harvest this fine game bird whether it be spring or fall.

### **Do you support modifying Wisconsin's turkey hunting regulations to specifically allow use of any firearm capable of firing fixed shotshells for turkey hunting?**

Additional Information provided by author:

The state of Michigan currently has this same wording and it allows me to hunt with a Taurus Judge 45/410 Revolver. I use a 3 inch 9.5 Tungsten shotshell with great success. There are several other firearms, such as the Diablo 12 Gaughe Pistol which would do the same.
