

Citizen Resolution # 380522

(For Hearing Officer completion)

Reduction of Turkey population to increase Ruffed Grouse numbers.

The increased Turkey population has had a dramatic impact on the statewide Ruffed grouse numbers. They have totally replaced the grouse in the southern part of the state and have severely impacted the northern grouse population. One only has to look at Missouri who the state continues to supply ruffed grouse to and due to their turkey population the grouse don't take hold.

Would the WCC support including Turkey on a small game license, no stamp required and a limit of 5 per day in the fall season to reduce the Turkey population and positively impact the Ruffed Grouse population?

Additional Information provided by author:

Do you support stopping sending Ruffed Grouse to the State of Missouri?

Resolutions introduced at each Spring Hearing are public documents under Wisconsin's Open Records law [ss. 19.31-19.39, Wis. Stats.] and will be posted online for the public to review. Any personally identifiable information will be available to the public but will only be used by the Department for administrative purposes.

Please print typed resolution on 8 ½ X 11 white paper (one-sided) and provide the WCC County Chair with TWO COPIES at the spring hearing. Only the individual author or designated representative may present the resolution. The author or designated representative must be present at the time the resolution is introduced. No more than two resolutions may be introduced by any person during the Congress portion of the spring hearings.

Contact one of your [local WCC delegates](#) with questions or for assistance with writing your resolution.
