

Citizen Resolution # 450222

(For Hearing Officer completion)

Antler point restrictions and deer quality

Deer hunting is a big part of many lives here in Wisconsin, however the quality of the herd may not be the best because of current regulations. Antler point restrictions may allow more bucks to reach their full potential. We should have accurate information to potentially add this as an option for the CDAC in each county.

Do you support the Conservation Congress working with the DNR to research and report on how the use of antler point restrictions in a county's harvest regulations can improve the quality and quantity of mature bucks in Wisconsin?

Resolutions introduced at each Spring Hearing are public documents under Wisconsin's Open Records law [ss. 19.31-19.39, Wis. Stats.] and will be posted online for the public to review. Any personally identifiable information will be available to the public but will only be used by the Department for administrative purposes.

Please print typed resolution on 8 ½ X 11 white paper (one-sided) and provide the WCC County Chair with TWO COPIES at the spring hearing. Only the individual author or designated representative may present the resolution. The author or designated representative must be present at the time the resolution is introduced. No more than two resolutions may be introduced by any person during the Congress portion of the spring hearings.

Contact one of your [local WCC delegates](#) with questions or for assistance with writing your resolution.
