

Citizen Resolution # 570121

(For Hearing Officer completion)

Youth Statewide Antlerless Permits

Whereas, youth antlerless permits are given to every hunter under 17 and valid statewide but must be specific to the land type such a public or private. Allowing a youth under 17 to harvest a doe on either public or private land increases their opportunity to harvest and deer, providing success, and recruiting new hunters. Land type data for youth harvest can be gained thru the registration process, if required by DNR.

Would you support making youth antlerless permits valid on any land type (public or private)?
