Subject: PECFA MWs at Biogenesis

Hi Steve,

I am responding to your telephone request to know which MWs are PECFA eligible for installation and for monitoring. I looked over the map of proposed wells and the costs for well installation and monitoring that I approved in my letter dated 10/4/19. Based on the site history, I consider the following 9 wells to be PECFA eligible for installation costs: SMW-3, 4, 5, 6, 7, 8, 9, 27R and 104R.

The 13 wells that are eligible for monitoring are those 9 MWs and existing wells: MW-102, SMW-1, SMW-2 and SMW-14R.

I hope this provides the information you need for PECFA-cost record-keeping and invoicing. Please let me know if you have any questions about this. I will also add this clarification email to BRRTS as part of the site file.

Thank you,
Linda
