Linda, good morning, thank you for reaching out.

We are currently planning to conduct a round of groundwater samples from the entire well network to obtain current baseline conditions. Your ears must have been burning because we just got the proposal in the hands of our client. We will follow-up upon receipt of the results.

Thank you.

**Subject:** [EXT] BRRTS #02-41-107191, Biogenesis Enterprises Update Request

Hi Steve and Josh,

The DNR is requesting an update on activities conducted at the Biogenesis Enterprises site, BRRTS #02-41-107191, since 2020. The only recent data we received is the 2020-2021 vapor data. In the latest NR 700 report received on July 21, 2023, Josh indicated that on-going remediation by natural attenuation is

occurring. As an update, submit sampling results collected and not yet reported, per Wis. Admin. Code § NR 716.14 (2) requirements.

Thank you,  
Linda

**We are committed to service excellence.**
