Subject: Remaining Actions Needed for Case Closure under Wis. Adm. Code chs. NR 700-754
Rymenams Property, W199 STH 54, Pittsville, WI
DNR BRRTS Activity # 03-27-109550

Dear Mr. and Ms. Brookhart:

On May 7, 2020, the Department of Natural Resources (DNR) reviewed your request for closure of the case described above. The DNR reviews environmental remediation cases for compliance with applicable local, state and federal laws. The following actions are required prior to the DNR granting you case closure in compliance with Wis. Stat. ch. 292 and Wis. Adm. Code chs. NR 700-754. Upon completion of these actions, closure approval will be provided. Pursuant to Wis. Adm. Code § NR 726.09 (2) (g), you are required to provide this information to the DNR within 120 days of the date of this letter.

Remaining Actions Needed

Closure Fees

Submit the \$1700 closure review fees in accordance with Wis. Admin. Code ch. § NR 726.05 (3).

Purge Water, Waste and/or Soil Pile Removal

Any remaining purge water, solid waste and/or contaminated soil piles generated as part of site investigation or remediation activities must be removed from the site and properly managed in accordance with the applicable local, state and federal laws. Once that work is complete, send documentation to the DNR regarding the methods used for appropriate treatment or disposal of the remaining purge water, solid waste and/or contaminated soil.

Documentation

When the required actions are completed, submit the appropriate documentation within 120 days of the date of this letter, to verify completion. At that point, your closure request can be approved and your case can be closed.

If any changes to the closure request are still outstanding, submit all changes to the original closure request. Only revisions or updates need to be submitted. The submittal of both an electronic and paper copy are required in accordance with Wis. Adm. Code s. NR 726.09 (1). See *Guidance for Electronic Submittals for the Remediation and Redevelopment Program, RR- 690* for additional information. To view the document online, go to dnr.wi.gov and search "RR 690".

Listing on Database

This site will be listed on the DNR's Bureau for Remediation and Redevelopment Tracking System on the Web (BOTW) and RR Sites Map, to provide public notice of remaining contamination and continuing obligations. The continuing obligations will be specified in the final case closure approval letter sent to you. Information that was submitted with your closure request application will be included on BOTW, located online at dnr.wi.gov and search "BOTW".

In Conclusion

We appreciate your efforts to restore the environment at this site. This remedial action project is nearing completion. I look forward to working with you to complete all remaining actions that are necessary to achieve case closure.

If you have any questions regarding this letter, please contact the project manager, Duabchi Vang, at (715)-839-3779 or duabchi.vang@wisconsin.gov.

Sincerely,

I spoke with the RP when I abandoned the well. He wasn't sure about signing the lien or just trying to save enough money to pay off the fees.

Subject: Remaining Actions Letter-Rymenams Property 03-27-109550

Hi Ron,

Attached is the Remaining Actions letter that will be mailed to the RPs. Please update the following for the closure packet:

- Fig. B.3.b Groundwater Isoconcentration-include sample location AP-1 within the PAL Isoconcentration line
- Change Fig. B.3.a Geologic Cross Sections to reflect this change

Any word from the RP on signing the lien acceptance documentation?

Thank you,

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
