Carrie.

Can you approve the two additional GIS Notifications you recommended (Davis and Village ROW – see attached).

Thanks

Subject: RE: Question re: notifications to Davis Autobody - Turtle Lake

Hi Ken, I just left you a voicemail message. I showed this to John Sager. It would be hard to reopen Davis Auto Body-which has no GW samples and closed with a deed restriction for soils. We know all the plumes are co-mingled, so I would notify Davis, Village (Pine Street), whatever property is next to Wild Card and also notify Pizza Place. If you need to adjust PECFA costs let me know. Thanks, Carrie

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Subject: Question re: notifications to Davis Autobody - Turtle Lake

Carrie.

I am sending GIS Notifications for the Wild Card Bar site.

See attached GW extent map. I was NOT going to send notification to Davis Autobody and Village because we interpret the GW contamination on Davis Autobody and adjacent village street to be from Davis Autobody. We can not differentiate GW impacts from Wild Card site and Davis so we are treating as a co-mingled plume. I am sending notifications to adjacent laundromat and DOT only.

Does DNR agree?

Thanks
