**Subject:** RE: Question re: notifications to Davis Autobody - Turtle Lake-APPROVED!

Hi Ken, this email serves as your approval for (2) additional GIS notifications (Davis Auto & Village ROW) for the Wild Card Bar (03-03-110339) closure packet prep.

Task 8, CR20: C.O. Packet Submittal (off-site properties only): (2) sites x \$229.39 = \$458.78

A note will be placed in Tracker. Please submit this approval email when you submit your claim. If you have any questions, please feel free to contact me. Thanks, Carrie

Carrie.

Can you approve the two additional GIS Notifications you recommended (Davis and Village ROW – see attached).

Thanks

Hi Ken, I just left you a voicemail message. I showed this to John Sager. It would be hard to reopen Davis Auto Body-which has no GW samples and closed with a deed restriction for soils. We know all the plumes are co-mingled, so I would notify Davis, Village (Pine Street), whatever property is next to Wild Card and also notify Pizza Place. If you need to adjust PECFA costs let me know. Thanks, Carrie

**Subject:** Question re: notifications to Davis Autobody - Turtle Lake

Carrie.

I am sending GIS Notifications for the Wild Card Bar site.

See attached GW extent map. I was NOT going to send notification to Davis Autobody and Village because we interpret the GW contamination on Davis Autobody and adjacent village street to be from Davis Autobody. We can not differentiate GW impacts from Wild Card site and Davis so we are treating as a co-mingled plume. I am sending notifications to adjacent laundromat and DOT only.

Does DNR agree?

Thanks
