Mary Praefke
Sparis, Inc.
1125 Paradise Drive
West Bend, WI 53095-9760

Dear Ms. Praefke:

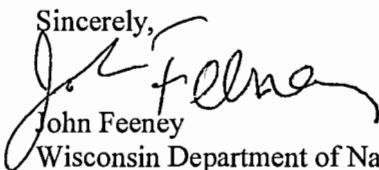

Subject: Potential rescind of conditional case closure status for Praefke Brake and Supply, (fka EIS Brake Supply), 133 Oak Street, West Bend, Wisconsin, BRRTS #0267152445, FID #267004430.

It has come to my attention that this case is still open pending your submittal of monitoring well abandonment forms, and of updated legal documents to the Wisconsin Department of Natural Resources. Please abandon the wells on site and submit an up to date property deed and associated certified survey map (if there is one) for the property. Please have this done and submit the required documentation to me within 60 days of your receipt of this letter.

If the department does not hear from you by that time I will have the conditional closure letter withdrawn, and the case listed as unconditionally open. This is due to the likelihood of unattended /unmaintained monitoring wells at the site becoming conduits for contamination into the groundwater from pollutants in surface water runoff.

If you have any questions about this letter please call me at 920-893-8523 or email me at johnm.feeney@wisconsin.gov.

Sincerely,

John Feeney
Wisconsin Department of Natural Resources
