Madison, WI 53717-2102

(owner of property)

Subject: Telephone conversation regarding Key Products located at 28627-8633 W. Lynx St.,
Milwaukee, WI

Dear Ms. Gehl:

Here are photocopies of the documents that you have requested:

1. Responsible Party letter to Mr. Richard Meinburg from the DNR dated January 3, 1997.
2. Key Engineering's Results of Limited Site Investigation report to the DNR dated July 23, 1998. I left out the soil boring log, monitoring well construction and development forms for MW-1, and the laboratory groundwater laboratory analytical results. The groundwater analytical results are summarized in Table 1.
3. Copy of off-site liability exemption request denial letter to Mr. Richard Meinburg dated November 17, 1998.
4. Copy of DNR's off-site liability guidance. This is what the Department uses when reviewing off-site liability exemption requests, like that submitted for Key Products.
5. Copy of map with summary of the geoprobe analytical results. Soil analytical results were taken from Taylor Industrial Vac Inc.'s October 8, 1997 Assessment Documentation Report.

For future reference, the facility identification number (FID) for this site is 241437790 and the Department's tracking number (BRRTS) is 0241156233. These identification numbers are helpful when contacting DNR staff regarding this site.

If you have any other questions or concerns please do not hesitate to contact me at the address above or at (414) 263-8644.

Sincerely,

Michelle M. McGee
