Dear Ms. Gehl:

Thank you for Moraine's Phase I investigation report for this property. I have photocopied the entire report and am mailing it back to you for your records. I have discussed this case with my supervisor and it was decided that they have until April 2, 1999 (approximately 30 days) to submit additional information showing that the contamination present on the property is from an off-site source. If they cannot support an off-site source, the Department will require Mr. Meinburg to investigate the contamination further and remediate the soil and groundwater if necessary.

If you have any other questions or concerns please do not hesitate to contact me at the address above or at (414) 263-8644.

Sincerely,

Michelle M. McGee
Hydrogeologist
Remediation and Redevelopment Program
