KEY ENGINEERING GROUP, LTD.
File No. 0712007

Dear Ms. Grundl:

The purpose of this letter is to provide the Wisconsin Department of Natural Resources (WDNR) with a project status update for the above referenced site. This letter has been prepared by Key Engineering Group, Ltd. (KEY) on behalf of Key Products, Inc.

As indicated in the May 30, 2000 *Site Investigation Work Plan Addendum*, Key Products, Inc. is awaiting WDNR approval of the May 23, 2000 *Site Investigation Work Plan and Addendum* prior to proceeding with the field investigation.

KEY has requested access from the adjacent property owners identified in the addendum. To date, access has only been received from the subject site tenant (Kraussel Tool); drilling within the subject site building appears feasible. Copies of the access request letters to the remaining property owners are attached.

Based on the lack of responses to KEY's written access requests, WDNR assistance in obtaining access is requested.

Please call at your earliest convenience to confirm that WDNR assistance regarding access will be provided. We appreciate your efforts.

Sincerely,

KEY ENGINEERING GROUP, LTD.

Curtis M. Hoffart, CHMM
Project Scientist
