Response to MSA letter dated 6/2/20
Ref: 03-39-168015
address 115 W. ORNSTEY, OXFORD.

I called MSA 3 days to get info on how to proceed
in answering letter. I was referred to DNR Greenberg
Called you, given different # to call. Talk to my
neighbor about letter. He stated his wife called
you ~~and~~ left # never got a call back.

I would like a list of all residents who was
sent letter and their address and additional
time to get responses back. I think the village
should have a meeting open to public w
somebody from DNR present to answer questions.

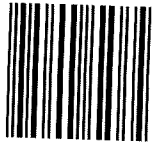

None of my neighbors understand the implication
of the letter in regards to liability suggested in
letter

I and my neighbors aren't interested in getting
the preknowledge of unlimited liability based
on others errors.
