Attachments: RR111a.xlsx; Cover Letter.docx

Hi Carrie,

That sounds good. We can start preparing case closure documents for this site. However, I don't believe we had a deferment approved for closure and well abandonments. Please see attached.

Thank you,

Anna Beckman

Importance: High

Hi Anna, I hope you have started the closure packet for this site and do not wait until after the June 18th closure discussion. Time is running out! Thanks, Carrie

We are committed to service excellence.

Subject: Olson Corner 2020 Progress Report

Good afternoon Carrie,

I've uploaded the June 2020 Progress Report for the Olson Corners site to the DNR's RR Submittal Portal. We are recommending that the site be closed or that a number of the more deteriorated wells be abandoned prior to the end of PECFA. Analytical results for almost all wells looked much improved in the last 1-2 rounds and there were no detections of any PVOCs in the Webster well (Witkowski residence) in the most recent sample.

Please feel free to contact me with questions or concerns.

Thank you,

Anna Beckman

SUBJECT: Proposal to Prepare Case Closure Documents
Perry's Corners
N6097 STH 73, (Hannibal) Gilman, WI
PECFA Project #54433-9753-97
BRRTS Project #03-61-168823

Dear Ms. Stoltz:

Cedar Corporation, on behalf of Ruth Olson, RP for Perry's Corners, is requesting approval by the Department to prepare and submit the Case Closure documents for the Perry's Corners site.

The attached deferment request includes the preparation of all Case Closure documents and appropriate GIS documents for the site and impacted right-of-way (WisDOT and municipality). It also includes the abandonment of all 17 monitoring wells around the site. We anticipate these services can be provided for \$9,403.26. The anticipated consultant costs that can be completed per usual and customary rates are itemized on the attached U&C #27 PECFA standardized invoice.

Please do not hesitate to contact me at 715-235-9081 should you have any questions or comments regarding this request.

Sincerely,

CEDAR CORPORATION

LABOR RATES FOR U & C SCHEDULE		SCHEDULE 26	SCHEDULE 27
		7/2019 to 12/2019	1/2020 to 6/2020
LABOR CATEGORY	DESCRIPTION	Maximum Reimbursable Hourly Labor Rate (Effective July 1)	Maximum Reimbursable Hourly Labor Rate (Effective January 1)
PRINCIPAL	Administrative and/or professional head of organization. Typically has a financial interest in the company. Direct professional staff; serve as technical expert or coordinator of complex sites. This rate has not been used in the computation of maximum reimbursable amounts for tasks defined as part of the usual and customary cost schedule.	\$ 138.06	\$ 138.06
SENIOR PROFESSIONAL	Senior technical leader. Develops technical and budgetary approach to work orders. Duties include aquifer characterization, review of technical reports and remedial action plans, modeling. Provides project supervision and management. Performs design and investigation work in technically complex situations often requiring innovative applications. Fieldwork is limited to performing or overseeing extremely complex activities. This maximum reimbursable rate has not been used in the computation of reimbursable amounts for tasks defined as part of field activities. This rate should be used for Professional Engineer oversight to meet Wis. Admin. Code ch. NR 712	\$ 112.96	\$ 112.96
PROJECT MANAGER	Has responsibility for managing entire project, including estimating costs within the project, controlling the project budget and ensuring that PECFA statute and rules are followed. May be involved in the development of approaches to site remediation, data analysis and interpretation, and report review. Coordinates and communicates with agency personnel, consultants and claimant. Not expected to conduct field. This maximum reimbursable rate has not been used in the computation of reimbursable amounts for tasks defined as part of field activities.	\$ 112.96	\$ 112.96
STAFF PROFESSIONAL	Implements field work for on-site investigation and remediation activities including site characterization, drilling supervision, monitoring well installation and sampling activities. Assists in modeling, hydrogeologic data analysis, and report preparation. Consults with higher level professional staff.	\$ 94.13	\$ 94.13
FIELD PROFESSIONAL	Ability to conduct hydrogeological investigations relating to leaking UST's and must be experienced in overseeing a wide variety of drilling operations, monitor well installations, sample logging and collection and data acquisition and interpretation and have the ability to design, perform and interpret aquifer tests.	\$ 81.58	\$ 81.58
FIELD TECHNICIAN	Performs assigned fieldwork and routine labor tasks. Assists in equipment installation and maintenance, and subcontractor oversight. Assists with well development, sampling and monitoring, static water level measurements and free product removal. Assists with field supervision of subcontractors.	\$ 62.76	\$ 62.76
DRAFTING	Technically familiar with basic engineering principles and construction methodologies. Works independently; work product reviewed by Professional Engineer. Proficient with AutoCAD or other forms of Computer Aided Design Drafting.	\$ 69.03	\$ 69.03
WORD PROCESSOR	Operates computer for word processing and spreadsheet entry. Assists technical and senior personnel with report production, correspondence preparation, and data entry.	\$ 43.93	\$ 43.93
CLERICAL	Performs general office work, typing, filing, and document reproduction.	\$ 43.93	\$ 43.93
NOTES:			
1) These labor rates include the cost of equipment and supplies used to complete office and field tasks and which are not included on the usual and customary equipment schedule. Separate costs for field and office equipment and supplies that do not appear on the usual and customary equipment schedule are not reimbursable.			
2) Reimbursement is based on the maximum rate allowed for a task, not the rate of the individual performing the work. For example, the maximum reimbursement rate for performing monitoring well sampling activities is an amount that corresponds with a Field Technician rate. However, there is no injunction against an individual with a higher reimbursable rate performing the task. (In other words, any individual that qualifies to perform a given task may perform that task, but reimbursement will be based on the hourly or unit rate for the task, not the pay rate of the individual performing the work.)			
3) Owners/operators who are or have personnel qualified to perform any of the tasks defined herein and who use their employees to perform these tasks will only be reimbursed for their cost to perform the task. (i.e., Wis. Admin. Code § NR 747.30(1)(e)(4) applies.)			
4) These labor categories - FIELD PROFESSIONAL, STAFF PROFESSIONAL, SENIOR PROFESSIONAL include the following disciplines: Hydrogeologist, Geologist, Scientist and Engineer
