Re: Well Sampling Results
Former Monroe Center Store groundwater monitoring

Dear Derek:

Attached is the laboratory report for the water sample collected from your potable well on February 26, 2019. The sample was analyzed for the most common petroleum compounds. None were detected. These results are consistent with previous results. No petroleum contamination has been detected in the new potable well at your property since it was installed in 2015.

Please feel free to contact me with any questions. My email address is jenglebert@msa-ps.com. My direct phone number is 608-355-8860. The DNR project manager for the former Monroe Center Store property, located immediately to the east of your property, is Dee Lance. Her email address is Dee.Lance@wisconsin.gov, or her direct phone number is 715-421-7862.

Sincerely,

MSA Professional Services, Inc.
