Fitchburg, Wisconsin 53711

Re: Bid Deferral and Variance Request for the Preparation of Remedial Excavation Bidding Package
Hugo Speaker Property
6832 U.S. Highway 18
Mount Ida, Wisconsin
PECFA No. 53809-9640-32

Dear Ms. DiMaggio,

In accordance with my discussion of this project with you, General Engineering Company (GEC) is submitting this bid deferral and variance request to acquire funds for preparation of the remedial excavation bidding package for this site. Costs are also being requested to perform a hand auger boring in the source area to collect a soil sample for laboratory analysis of TCLP benzene and lead, which will be required by the landfill for authorization of the soils in this case. Subsequent to approval of the request, GEC will begin to compile the contractor bidding package for the proposed remedial excavation. After all bids have been received, GEC will submit an additional bid deferral and variance request for the estimated total cost of the remedial activities and other work which may be necessary.

The consultant change order preparation, mobilization, hand auger boring, and laboratory analytical costs for this bid deferral request were calculated utilizing the most recent Usual and Customary Cost Schedule (UCCS) #25. Those costs total \$1,249.21 and are included on the attached Usual and Customary Standardized Invoice. The variance costs associated with the bid package preparation are included in the variance rows of the UCCS Invoice #25 and total \$2,412.74. The breakdown of the variance costs is shown below and were calculated utilizing the Customary Hourly Labor Rates.

Consultant Bidding Documents/Contractor Coordination/Landfill Profiling and Coordination

22	Hours	X	\$109.67 per Hour	=	\$2,412.74
Total Variance					\$2,412.74

General Engineering looks forward to your response. Please do not hesitate to contact me with any questions or concerns.

Respectfully submitted,

GENERAL ENGINEERING COMPANY

LABOR RATES FOR U & C SCHEDULE

SCHEDULE 24

SCHEDULE 25

7/2018 to 12/2018

1/2019 to 6/2019

LABOR CATEGORY	DESCRIPTION	SCHEDULE 24		SCHEDULE 25	
		7/2018 to 12/2018	1/2019 to 6/2019	7/2018 to 12/2018	1/2019 to 6/2019
		Maximum Reimbursable Hourly Labor Rate (Effective July 1)		Maximum Reimbursable Hourly Labor Rate (Effective January 1)	
PRINCIPAL	Administrative and/or professional head of organization. Typically has a financial interest in the company. Direct professional staff; serve as technical expert or coordinator of complex sites. This rate has not been used in the computation of maximum reimbursable amounts for tasks defined as part of the usual and customary cost schedule.	\$ 134.04		\$ 138.06	
SENIOR PROFESSIONAL	Senior technical leader. Develops technical and budgetary approach to work orders. Duties include aquifer characterization, review of technical reports and remedial action plans, modeling. Provides project supervision and management. Performs design and investigation work in technically complex situations often requiring innovative applications. Fieldwork is limited to performing or overseeing extremely complex activities. This maximum reimbursable rate has not been used in the computation of reimbursable amounts for tasks defined as part of field activities. This rate should be used for Professional Engineer oversight to meet Wis. Admin. Code ch. NR 712	\$ 109.67		\$ 112.96	
PROJECT MANAGER	Has responsibility for managing entire project, including estimating costs within the project, controlling the project budget and ensuring that PECFA statute and rules are followed. May be involved in the development of approaches to site remediation, data analysis and interpretation, and report review. Coordinates and communicates with agency personnel, consultants and claimant. Not expected to conduct field. This maximum reimbursable rate has not been used in the computation of reimbursable amounts for tasks defined as part of field activities.	\$ 109.67		\$ 112.96	
STAFF PROFESSIONAL	Implements field work for on-site investigation and remediation activities including site characterization, drilling supervision, monitoring well installation and sampling activities. Assists in modeling, hydrogeologic data analysis, and report preparation. Consults with higher level professional staff.	\$ 91.39		\$ 94.13	
FIELD PROFESSIONAL	Ability to conduct hydrogeological investigations relating to leaking UST's and must be experienced in overseeing a wide variety of drilling operations, monitor well installations, sample logging and collection and data acquisition and interpretation and have the ability to design, perform and interpret aquifer tests.	\$ 79.20		\$ 81.58	
FIELD TECHNICIAN	Performs assigned fieldwork and routine labor tasks. Assists in equipment installation and maintenance, and subcontractor oversight. Assists with well development, sampling and monitoring, static water level measurements and free product removal. Assists with field supervision of subcontractors.	\$ 60.93		\$ 62.76	
DRAFTING	Technically familiar with basic engineering principles and construction methodologies. Works independently; work product reviewed by Professional Engineer. Proficient with AutoCAD or other forms of Computer Aided Design Drafting.	\$ 67.02		\$ 69.03	
WORD PROCESSOR	Operates computer for word processing and spreadsheet entry. Assists technical and senior personnel with report production, correspondence preparation, and data entry.	\$ 42.65		\$ 43.93	
CLERICAL	Performs general office work, typing, filing, and document reproduction.	\$ 42.65		\$ 43.93	

NOTES:

- 1) These labor rates include the cost of equipment and supplies used to complete office and field tasks and which are not included on the usual and customary equipment schedule. Separate costs for field and office equipment and supplies that do not appear on the usual and customary equipment schedule are not reimbursable.
- 2) Reimbursement is based on the maximum rate allowed for a task, not the rate of the individual performing the work. For example, the maximum reimbursement rate for performing monitoring well sampling activities is an amount that corresponds with a Field Technician rate. However, there is no injunction against an individual with a higher reimbursable rate performing the task. (In other words, any individual that qualifies to perform a given task may perform that task, but reimbursement will be based on the hourly or unit rate for the task, not the pay rate of the individual performing the work.)
- 3) Owners/operators who are or have personnel qualified to perform any of the tasks defined herein and who use their employees to perform these tasks will only be reimbursed for their cost to perform the task. (i.e. Wis. Admin. Code § NR 747.30 (1) (e) 4 applies)
- 4) These labor categories - FIELD PROFESSIONAL, STAFF PROFESSIONAL, SENIOR PROFESSIONAL include the following disciplines: Hydrogeologist, Geologist, Scientist and Engineer
