RE: Request for Site Update

D&M Motors (Former), 5923 West Lincoln Avenue, West Allis
DNR BRRTS # 03-41-184130 PECFA # 53219-2109-23-A

Dear Ms. Kaleka:

The Wisconsin Department of Natural Resources (the Department) is requesting information regarding activities associated with petroleum contamination at the site referenced above. You may be aware that as of July 2, 2013, the entire Petroleum Environmental Cleanup Fund Award (PECFA) Program, as well as regulatory oversight of low and medium risk petroleum contamination sites, was transferred to the DNR. Going forward, I will be the project manager for the regulatory oversight as well as the PECFA-funding decisions for this site. Please send all future correspondence to the undersigned at the letterhead address.

According to documents in the file, a request for case closure was submitted to the Department of Safety and Professional Services (DSPS) on November 9, 2012 by your consultant, Environmental and Development Solutions, Inc. Unfortunately, the case was unable to be reviewed for closure because additional information was necessary to complete the review.

The Department has not received the requested additional information for the closure review. If you have prepared a report with the additional information, please provide that information to the Department for review. If the requested information has not been prepared or you no longer have a consultant working on your site, you must hire an environmental consultant to move this case toward closure. A copy of the DSPS letter detailing the additional information that must be submitted is enclosed for your reference.

By **May 2, 2014**, please inform DNR in writing of your intentions to bring this case to closure. Be aware that periods of inactivity and non-compliance can affect PECFA eligibility (if applicable). In addition, the Department can pursue enforcement actions if you do not respond to this request for information.

Your prompt attention to this request is appreciated. If you have any questions, please contact me in writing at the letterhead address, by telephone at (262) 574-2182 or via email at: monica.weis@wisconsin.gov.

Sincerely,

Monica L. Weis
Hydrogeologist
