Name and Return Address:
WI Dept. Natural Resources
ATTN: Pamela A. Mylotta
2300 N Martin Luther King Dr
Milwaukee, WI, 53212

I, Pamela A. Mylotta, being first duly sworn, state that:

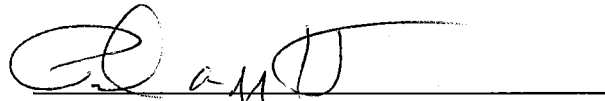

1. I am a Remediation and Redevelopment Program Supervisor, employed by the Wisconsin Department of Natural Resources (hereinafter "the department").
2. Christopher Frauen - Hydrogeologist - Wisconsin Department of Natural Resources - Milwaukee, has personal knowledge of the facts herein set forth and believe the same to be true.
3. The department was notified of a petroleum contamination discharge at the property located at 5923 W Lincoln Way, in the city of West Allis, County of Milwaukee, and which has the above legal description.
4. According to Wisc. Stats. § 292.11 (3) a person who possesses or controls a hazardous substance which is discharged or who causes the discharge of a hazardous substance shall take the actions necessary to restore the environment to the extent practicable and minimize the harmful effects from the discharge to the air, lands or waters of this state.
5. On May 29th, 2018, the department sent a letter, by certified mail, to Satpal Kaleka advising him/her of the statutory requirement to restore the environment at that location, and that a notice of contamination may be recorded if satisfactory action to restore the environment did not commence. That letter requested a written response within 30 days from the date the letter was received. No response to that letter was received by the department, by June 28th.
6. On February 4th, 2019, the department sent a second letter, by certified mail, to Satpal Kaleka advising that the department has made the decision to record a notice of contamination for the above-described property at the county Register of Deeds office. The 30-day deadline specified in the letter has expired. The 15 day waiting period since that deadline, required by Wis. Adm. Code § NR728.11 (2)(c), has passed without an acceptable response.
7. Because the department believes that petroleum contamination currently found on the property with the above legal description will continue to discharge into the environment, subsequent
