Subject: Transfer of Project Management to Department of Commerce
Glenn's Service Station, 3302 W. Center Street, Milwaukee

Dear Mr. Barber:

The State of Wisconsin divides the jurisdiction for sites contaminated by petroleum storage tank systems between the Wisconsin Department of Natural Resources (WDNR) and the Department of Commerce (Commerce), based on statutory definitions of high, medium and low risk sites. Under this statute, oversight of sites falling under the definition of "low or medium risk" is the responsibility of Commerce rather than the WDNR.

Your site appears to fall under the definition of "low or medium risk". As such, staff at Commerce will provide further reviews of submittals and all technical assistance related to this case. Accordingly, WDNR will transfer the above referenced file to Commerce at the following address:

Lee Delcore (414) 357-4701
Gregory Michael (414) 357-4702
Linda Michael (414) 357-4703
Steve Mueller (414) 357-4704
Monica Weiss (414) 357-4705

Wisconsin Department of Commerce
Environmental & Regulatory Services
9316 N. 107th St.
Milwaukee, WI 53224-1121

If you have questions or concerns regarding this site, or would like to review any of the pertinent file documents, you should direct them to Commerce staff listed above.

Sincerely,

Victoria Stovall / T.P.

Victoria Stovall,
Environmental Program Associate
Department of Natural Resources
Remediation & Redevelopment
