RE: **Request for Site Update**

WDNR BRRTS # 03-41-184166 PECFA # 53210-2531-02-A
Former Autoquip (Former Glenn's Service Station), 3302 W Center St., Milwaukee

Dear Mr. Collins Ochi:

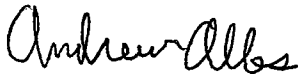

The Wisconsin Department of Natural Resources (Department) is requesting information regarding activities associated with petroleum contamination at the site referenced above. According to information in the case file, petroleum contamination was discovered at the site on February 2, 1998. The most recent correspondence in the file is dated September 14, 2011, prepared by the Wisconsin Department of Safety and Professional Services.

The Department requests that you submit any more recent information and provide a plan to fulfill your responsibility to address the petroleum contamination. Under current regulations, many sites require little or no cleanup actions after adequate characterization and risk assessment are performed.

Within 30 days, please inform the Department in writing of your intentions to bring this case to closure. Be aware that periods of inactivity and non-compliance can affect PECFA eligibility (if applicable) and, specifically, interest on your PECFA loan may not be eligible for reimbursement. In addition, the Department can pursue enforcement actions if you do not respond to this request for information.

Your prompt attention to this request is appreciated. If you have any questions, please contact me in writing at the letterhead address or by telephone at (608) 261-8509.

Sincerely,

Andrew Alles
Hydrogeologist
