Madison, WI 53704

SUBJECT: No Further Action Required
WDOT Right-of-Way adjacent to Robinson's Cleaners, 1036 Fourth St.
(Hwy 81), Beloit (WDOT Project ID: 5989-05-11)

Dear Linda:

On October 29, 1997, the Department received a phase 2 environmental assessment for the above named site. The assessment revealed the presence of 90 micrograms per kilogram (ug/kg) of tetrachloroethylene in a soil sample collected from a soil boring in the right-of-way.

On December 12, 1997, the South Central Region's Closure Committee reviewed the site. This committee reviews environmental remediation cases for compliance with state laws, standards, and guidelines to maintain consistency in the closeout of cases.

Based on the correspondence and data provided, the Closure Committee has determined that no further investigation, remediation, or other action is required at this time.

Please be aware that this letter does not absolve the current or any future owner of this property from future decisions regarding this site or impacts which may be discovered and/or traced back to past or future activities at this site. If in the future, the Department receives information which demonstrates that additional work is necessary, the Department has the authority to require further action.

Your cooperation and assistance in this matter has been greatly appreciated. If you have any questions regarding this letter, please contact me at the phone number shown below.

Sincerely,

Joe Lourigan
Remediation and Redevelopment, Hydrogeologist
