SUBJECT: Waste Determination
CG Enterprises, 1044 9th Street, Green Bay, Wisconsin
WDNR BRRTS # 02-05-186146

Dear Mr. Angst:

On May 2, 2013, the Wisconsin Department of Natural Resources (Department) received hazardous waste determination materials for the above referenced CG Enterprises site. The submittal was prepared by Stantec and submitted to the Department on your behalf. On May 13, 2013, the Department received your request for a waste determination letter and the associated \$500.00 review fee.

This letter is based upon the above referenced submittal and previously submitted information for the CG Enterprises site. The letter serves as your notification that chlorinated solvent contaminated soil at the CG Enterprises site can be handled/disposed of as non-hazardous waste provided appropriate testing does not exhibit a hazardous characteristic.

If you have any questions regarding the content of this letter, please contact me at 920-662-5443.

Sincerely,

Kristin DuFresne
Hydrogeologist
Remediation & Redevelopment Program
