Subject: Sheleski Property - BRRTS # 03-71-186591

Jason,

Due to the time constraints associated with the end of PECFA, the WDNR has reviewed your closure submittal and given approval at this time to abandon the monitoring wells at the "Sheleski Property" WDNR BRRTS Case # 03-71-186591. In addition, the WDNR is recommending the soil and groundwater delineation be extended (with dashed lines) into Washington St. right-of-way (ROW) meaning a 30 day notice will have to be sent to the owner of the ROW. WDNR will be able to review this site for closure 30 days after the ROW owner has received this notice. At that time I will provide you with any requested revisions to the closure packet. Provide the well abandonment forms once the wells have been abandoned but please just send an electronic copy. As always, let me know if you have any questions or concerns.

Thanks,
Andy James
