Oshkosh, WI 54901

Subject: A to Z Sales & Service – Site Investigation cost cap exceedence request #2 (>\$20K). BRRTS #: 03-59-190963, PECFA #: 54416-9999-00

Dear Mr. Verstegen,

A second cost estimate (using Usual & Customary schedule of charges) is being submitted for completion of the site investigation at the subject property located at 100 W. Main Street in Bowler, Wisconsin. This is required due to COMM 47 rule changes (Comm 47.337(2)) which requires WDNR approval to exceed the cap, meaning any costs incurred above \$20,000 after April 30, 2006, will not be eligible for reimbursement unless previously approved.

As of today's date, \$14,517.69 has been spent of the \$40,067 Site Investigation Cap and included: [1] Investigation Workplan [2] Geoprobe Project (21 borings ranging from 11-16 feet bgs with 70 soil samples and 20 groundwater samples collected for field (PID) and/or laboratory analysis (VOC, PAH, PVOC/Naphthalene, and Lead)), [3] Drilling Project with the installation of six monitoring wells ranging from 16-19 feet bgs, [4] Survey, [5] Conducted one round of groundwater monitoring, [6] Hydraulic Conductivity Testing, and [7] Waste Disposal.

The proposed workscope to complete the site investigation includes: Drilling Project with the installation of two additional monitoring wells to approximately 19 feet bgs (please note that bedrock may vary from 11 to 19+ feet bgs and was not encountered during drilling project #1) with soil samples collected for field (PID) analysis, two rounds of groundwater monitoring from all eight site monitoring wells (6 already approved for Round 2) for laboratory analysis (VOC/PVOC+ Naphthalene), surveying, waste disposal, and completion of the Soil and Groundwater Investigation Report (cost already approved). The cost estimate for the proposed workscope is as follows:

Access Agreements	\$ 401.94
Drilling Project	\$4,199.05
Groundwater Monitoring (2 add. wells/Rd 2 & 8 wells/Rd 3)	\$1,352.61
Laboratory Analysis	\$ 488.94
Surveying	\$ 220.30
Investigative Waste Disposal	\$ 899.54
Soil and Groundwater Investigation Report	(already approved)
Change Order Request	<u>\$ 381.78</u>
Total	\$7,944.16

METCO is requesting a second cost cap exceedence in the amount of \$7,944.16. This will bring the total site investigation costs to \$48,011.16.

Upon state approval of the proposed workscope and budget, METCO will proceed with the site investigation.

Attached are an updated site layout map with proposed monitoring well locations, groundwater flow map from Round 1 sampling, groundwater data tables, and draft standardized invoice form for the above workscope as required. Please note that you can also see the Geoprobe soil & groundwater results that were included in the previous cost cap requested dated 8/3/17.

Should you have any questions, comments, or recommendations please contact me at our La Crosse office (608) 781-8879 or email at jasonp@metcohq.com.

Sincerely,

Jason T. Powell
Staff Scientist
