Jason,

I am thinking we need a verification sample from MW-6. Given the numbers from G-15 and GW flow direction, it doesn't make a lot of sense.

NEVER MIND

I am working with a new email set-up and did not see the attachment. The way it looks now, we will need those wells. I will review the request next week, but would like to know what the \$13,500 is earmarked for. Thanks.

Tom,

It's Diana, and I will let Jason answer this when he is back on Monday.

Diane or Jason,

If I am reading this right, there was \$40,067.00 approved and about \$26,400.00 spent, leaving about \$13,500.00 unspent. What is the \$13,500.00 earmarked for? Show me why you need additional wells.
