

G.D.

**Notification of Continuing Obligations  
and Residual Contamination**

Form 4400-286 (9/15)

C. I. Page

**The affected property is:**

- the source property (the source of the hazardous substance discharge), but the property is not owned by the person who conducted the cleanup (a deeded property)
- a deeded property affected by contamination from the source property
- a right-of-way (ROW)
- a Department of Transportation (DOT) ROW

*Include this completed page as an attachment with all notifications provided under sections A and B.*

**Contact Information**

**Responsible Party:** The person responsible for sending this form, and for conducting the environmental investigation and cleanup is:

Responsible Party Name Village of Bowler

Contact Person Last Name Breitrick	First Kerry	MI	Phone Number (include area code) (715) 793-4910	
Address 107 W Main Street		City Bowler	State WI	ZIP Code 54416
E-mail <u>villageofbowler@frontier.com</u>				

**Name of Party Receiving Notification:**Business Name, if applicable: Shawano County

Title Mr.	Last Name Bystol	First Grant	MI	Phone Number (include area code) (715) 526-9182	
Address 3035 E Richmond Street		City Shawano	State WI	ZIP Code 54166	

**Site Name and Source Property Information:**Site (Activity) Name A to Z Sales & Service

Address 100 W Main Street		City Bowler	State WI	ZIP Code 54416
DNR ID # (BRRTS#) 03-59-190963		(DATCP) ID #		

**Contacts for Questions:**

If you have any questions regarding the cleanup or about this notification, please contact the Responsible Party identified above, or contact:

**Environmental Consultant: METCO**

Contact Person Last Name Anderson	First Ron	MI	Phone Number (include area code) (608) 781-8879	
Address 709 Gillette Street, Suite 3		City La Crosse	State WI	ZIP Code 54603
E-mail <u>rona@metcohq.com</u>				

**Department Contact:**

To review the Department's case file, or for questions on cleanups or closure requirements, contact:

Department of: Natural Resources (DNR)

Address 2984 Shawano Ave		City Green Bay	State WI	ZIP Code 54313
Contact Person Last Name James	First Andrew	MI	Phone Number (include area code) (920) 662-5149	
E-mail (Firstname.Lastname@wisconsin.gov) <u>Andrew.James@wisconsin.gov</u>				

**Section B: ROW Notification: Residual Contamination and/or Continuing Obligations - Non-DOT ROWs**

**KEEP THIS DOCUMENT WITH YOUR PROPERTY RECORDS**

3035 E Richmond Street  
Shawano, WI, 54166

Dear Mr. Bystol:

I am providing this notification to inform you of the location and extent of contamination remaining in a right-of-way for which you are responsible, and of certain long-term responsibilities (continuing obligations) for which county of Shawano may become responsible. I investigated a release of:

Gasoline

on 100 W Main Street, Bowler, WI, 54416 that has shown that contamination has migrated into the right-of-way for which county of Shawano is responsible.

I have responded to the release, and will be requesting that the Department of Natural Resources (DNR) grant case closure. Closure means that the DNR will not be requiring any further investigation or cleanup action to be taken. However, continuing obligations may be imposed as a condition of closure approval.

**You have 30 days to comment on the proposed closure request:**

The DNR will not review my closure request for at least 30 days after the date of this letter. As an affected right-of-way holder, you have a right to contact the DNR to provide any technical information that you may have that indicates that closure should not be granted for this site. If you would like to submit any information to the DNR that is relevant to this closure request, you should mail that information to the DNR contact: 2984 Shawano Ave, Green Bay, WI, 54313, or at Andrew.James@wisconsin.gov.

**Residual Contamination:**

***Groundwater Contamination:***

Groundwater contamination originated at the property located at: 100 W Main Street, Bowler, WI, 54416 .

The levels of

Benzene, Ethylbenzene, Naphthalene, Toluene, Trimethylbenzenes, and Xylene

contamination in the groundwater on your property are above the state groundwater enforcement standards found in ch. NR 140, Wis. Adm. Code.

If residual soil or groundwater contamination is likely to affect water collected in a pit/trench that requires dewatering, a general permit for Discharge of Contaminated Groundwater from Remedial Action Operations may be needed. If you or any other person plan to conduct utility or building construction for which dewatering will be necessary, you or that person must contact the DNR's Water Quality Program, and if necessary, apply for the necessary discharge permit. Additional information regarding discharge permits is available at <http://dnr.wi.gov/topic/wastewater/GeneralPermits.html>.

**Continuing Obligations on the Right-of-Way (ROW) :** As part of the response actions, I am proposing that the following continuing obligations be used at the affected ROW. If my closure request is approved, you will be responsible for the following continuing obligations:

**GIS Registry and Well Construction Requirements:**

If this site is closed, all properties within the site boundaries where contamination remains, or where a continuing obligation is applied, will be listed on the Bureau for Remediation and Redevelopment Tracking System (BRRTS) on the Web, at <http://dnr.wi.gov/topic/Brownfields/clean.html>. Inclusion on this database provides public notice of remaining contamination and of any continuing obligations. Documents can be viewed on this database, and include final closure letters, site maps and any applicable maintenance plans. The location of the site may also be viewed on the Remediation and Redevelopment Sites Map (RR Sites Map), on the "GIS Registry" layer, at the same internet address listed above.

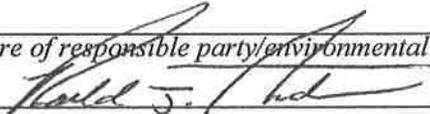

DNR approval prior to well construction or reconstruction is required for all sites included in the GIS Registry, in accordance with s. NR 812.09 (4) (w), Wis. Adm. Code. This requirement applies to private drinking water wells and high capacity wells. Special well construction standards may be necessary to protect the well from the remaining contamination. Well drillers need to first obtain approval from a regional water supply specialist in DNR's Drinking Water and Groundwater Program. The well construction application, form 3300-254, is on the internet at <http://dnr.wi.gov/topic/wells/documents/3300254.pdf>.

**Notification of Continuing Obligations  
and Residual Contamination**
