Subject: Arlene's Inn - Primary Closure Request - Willard, WI (BRRTS #: 03-10-196577)

METCO is requesting a variance for completion of the Primary Closure Request for the above-mentioned site located at N8631 CTH G in Willard, Wisconsin. This will include costs to complete the "Primary Closure Request" for the above site which includes site history, several private well sampling events, and the site was also tied with the neighboring Don's General Repair for the majority of the projects history. The review of entire site file with information and data going back to 1997, compiling of all site data into updated tables and maps and organizing the site history has depleted the approved reporting costs. We are requesting a variance in the amount of \$1,411.95 (15 hours @ \$94.13/hour) to complete the closure request.

Any questions please call or email.

Thanks,

Jason Powell

RE: **Public Bidding Deferred – Cost Cap Approved**

PECFA # 54493-8809-31-A DNR BRRTS # 03-10-196577
Arlene's Inn, N8631 County Rd G, Willard

On April 08, 2020, the Wisconsin Department of Natural Resources (Department) received a scope of work (SOW) and cost estimate utilizing the chapter NR 747, Wisconsin Administrative Code, Usual and Customary Cost Schedule (Cost Schedule) for the site referenced above.

The Department has determined that the submitted SOW is reasonable and **approves** the additional costs. This site will be deferred from the public bidding process at this time. The Department will contact you if this site will be bid in the future.

The approved SOW is for the completion of the case closure request.

Deferment Cost Cap Approved: \$1,411.95

Be reminded that ch. NR 700 semi-annual progress reporting is required until this case is closed.

Note: A claim for PECFA reimbursement must be submitted within 180 days of incurring costs (i.e., completing a task). If a claim for costs incurred is not submitted within this deadline, the costs will not be eligible for PECFA reimbursement.

Usual and customary costs for activities included in this approval will only be reimbursed at a rate equal to or less than what is allowed on the Cost Schedule and are reimbursed based upon the Cost Schedule that is in effect at the time the activity is performed. Costs for activities not included in this approval are not reimbursable without prior Department authorization.

Regulatory Correspondence (Task 7, Activity RC05), Claim Submittal (Task 27, Activity CS05) and Standardized Invoice (Task 28, Activity SI05) costs are not included in the cap approved above. These activities will be reimbursed according to the task specifications and with submittal of proper supporting documentation at claim review time.

The Department approves a variance from the Cost Schedule for 15 hours of work at a rate of \$94.13/hour to complete the case closure request. Do not include these costs (\$1,411.95) on the standardized invoice for usual and customary cost activities. Include these costs on a separate company invoice. When you submit the claim for these costs, please attach a copy of this letter for the claim

reviewer's reference. The Department waives the commodity three-bid requirement with this variance approval.

The Department considers the consultant the primary controller of costs during these activities. This approval does not guarantee eligibility of any specific costs that have been incurred or that may be incurred in the future. Final determination regarding the eligibility of costs will be made by the claim reviewer when the entire claim, including all invoices and reports, is submitted for payment.

Thank you for your efforts to protect Wisconsin's environment. If you have any questions, please contact the DNR Project Manager, Duabchi Vang in writing at the letterhead address or by telephone at (715)-839-3779.

Sincerely,
