Subject: Steve's Corner Bar, 200 Main St., Butternut, WI

Dear Mr. Rusnak:

On Sept. 23, 1998, the Department of Natural Resources - Remediation and Redevelopment Program was notified by Travis Peterson of Agenda International that evidence of contamination was discovered at the above referenced property.

The Department appreciates your prompt notice of the potential release. When you receive laboratory results that document whether or not there is hazardous substance contamination on the property, please send the results to the Department as soon as possible. The laboratory results should be summarized in a table with the data confirming the release highlighted and should be followed by a "Tank Closure Site Assessment Report". Send this and all further correspondence to: Janet Kazda, Wisconsin Department of Natural Resources, 107 Sutliff Ave, Rhineland, WI 54501.

Upon our review of the additional information that has been requested, we will notify you of any further actions that may be required by sec. 292.11, Stats. (the spill statute) and chs. NR 700-728, Wisconsin Administrative Code.

If you have any questions, please call Danielle Lancour at (715) 365-8986.

Sincerely,

Danielle Lancour  
Remediation and Redevelopment Program
