Barb,
There was not an existing site map but I included a historical aerial photo from google maps. I have also included the photos from the demolition in March 2021. I could not find any information regarding what (if anything) is still remaining onsite.
Thanks,
Mark

Thank you! Do you have an overlay of where the building was (I understand that it has been removed already)? Is the concrete floor of the building still in place? Do you have any current site pics?

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Barb,

In response to your voicemail, please see the attached plans for the retaining wall and regrading/repaving of the parking lot for the Former Smith Union 72 post closure modification in Solon Springs. I was told that we would not need a fee for the post closure modification so we have not submitted any money at this time (not sure why the box was checked but I apologize for the confusion). Please contact either Jeff or myself if you have any questions or need any additional information.

Thanks,
Mark
